Contract Types define the 'Interval', the 'Initial Term' and the 'Renewal Term' associated with a Contract. Contract Types can currently only be associated with Services and therefore can only apply to Subscriptions.

Procedure to follow when creating Contract Types:

- - ? On the 'Contract Types' page, click on the 'Add Contract Type' link.
 - ? Fill out the 'Interval' period (days/months/years, etc.), and the 'Initial' & 'Renewal' Terms (number of Interval periods)
 - ? Click the [Save] button

Once created, a Contract Type can be associated with various Offers, Services, Products and Charges as appropriate.
