

Translations

SmartBilling has built a content management system at configuration level so that in an easy interphase, the user can add the translations of the content input in the platform, so that the generation of the invoice or communications of the platform happen 100% in the desired final language.

▪

See how easy is to translate in SmartBilling. Step1, click in the text you want to translate

▪

Step2, edit or do the translation, ad then save
