

[Home](#) [FAQ page](#) [SmartBilling 5.0](#)

The Catalog in SmartBilling defines the [Products](#), [Charges](#), [Usage Rates](#) and [Services](#) that are managed by the SmartBilling application. It also defines the [Price Lists](#) that are used to offer products and services to the user's customer base.

▪

These objects are organized together and work in conjunction with each other in order to build Subscriptions and facilitate the rating and invoicing and Accounts Receivable management features within SmartBilling.

Users can create Catalog objects using the links in the Actions box (1).
